

## 2025 RECYCLED CONTENT ESTIMATES

**INFORMATIONAL PURPOSES ONLY:** Bonnell Aluminum (“**Bonnell**”) has prepared the following recycled content averages of its aluminum extruded products (“**Products**”).

**DISCLAIMER:** **Bonnell**’s recycled content levels may fluctuate over time due to changing guidelines, operating conditions, supplier factors, and scrap availability. While reasonable care has been taken in preparing these estimates, any third-party use of this information is at their own risk. All data is provided “as is” with no guarantee of completeness, accuracy, timeliness, or of the results obtained from the use of this information, and without any warranty of any kind, express or implied, including, but not limited to warranties of performance, merchantability, and fitness for a particular purpose. In no event will **Bonnell**, or any of its subsidiaries, partners, representatives, or employees thereof be liable to you or anyone else for any decision made or action taken in reliance on the information in this document or for any consequential, special, or similar damages, even if advised of the possibility of such damages.

With this understanding, **Bonnell** estimates the following average recycled content percentages for its Products manufactured in 2025:

Location	Pre-consumer Content	Post-consumer Content
Bonnell Aluminum Carthage, TN	44%	16%
Bonnell Aluminum Newnan, GA	36%	18%
Bonnell Aluminum Niles, MI	12%	3%
Bonnell Aluminum Clearfield, UT	0%	0%
Total	34%	13%
