

Bruce Walker Joins Bonnell Aluminum

Bonnell Aluminum is pleased to announce that Bruce Walker has joined the company as Process Engineering Manager – Newnan plant, effective September 18, 2012. Bruce comes to Bonnell Aluminum with over 30 years of aluminum extrusion experience in Quality Management and Process Engineering. His experience also includes the successful implementation of the ISO/TS 16949 standard. Bruce is a Professional Engineer and has a Bachelor's degree in Metallurgical Engineering. Please join us in welcoming Bruce to the Bonnell Aluminum team as we look forward to the contribution and experience he will bring to the organization.
